“Caltrols Distributing Mid-West[®] Instrument Products in the Middle East”

February, 2016

Caltrols Middle East FZCO was established in 2002 in Jebel Ali Free Zone by two entrepreneurs who had a combined Service and Sales experience of over 15 years specifically in the Oil & Gas and Power Industry. The company has branch offices in Abu Dhabi, Sultanate of Oman and Pakistan.

The company is staffed by qualified Engineers and Technicians totalling 50 in all the three countries. The bulk of the staff is based at the Jebel Ali Office where there are 25 people with 6 in Abu Dhabi, 10 in Oman and the rest in Pakistan.

Caltrols' Major customers are Baker Hughes, Schlumberger, Halliburton, National Oilwell, McDermott, ADNOC Group of companies, Petroleum Development Oman, Sui Southern Gas, OGDCL, PPL to name a few.

Caltrols activities involve Sales and Service. There is a certified laboratory that caters to all types of Instrument Calibration/Service and Repair. Besides this there is a Safety Valve Test Bench and a Flow Meter Test Bench too. Caltrols is an ISO 9001 company Caltrols is also 17025 accredited.

Caltrols carries a large inventory of Chart Recorders, Safety Relief Valves, Pressure Gauges, Test Equipment and other items. We are also looking into the stocking of Mid-West[®] Instrument DP Gauges which will complement our existing stock of normal Pressure/Temperature Gauges. This way Caltrols would be geared up to catering to the needs of all Mid-West[®] Instrument customers in the region from one focal point.

In association with Mid-West[®] Instrument, Caltrols will combine orders from the region for those items we do not hold stock off to make it cost effective for our customers. Our pricing module will reflect the same prices that you would get if you went to Midwest direct for a quantity of up to 25 pcs.
